A thousand visitors at Pot-pourri

In a little longer than twenty days of being open, the Fondazione Gabriele e Anna Braglia of Lugano welcomed a **thousand two hundred** visitors at the exhibition *POT-POURRI. From Picasso to Valdés*. Among the numerous visits was the one of the participants to the **Global Step Summit** International Convention organized by the Università della Svizzera Italiana (USI) and dedicated to the growth of family entrepreneurs and worldwide family businesses in the growingly complex globalized world.

Gabriele Braglia (on the right) in the company of the thousandth visitor, Dr. Michele Cettuzzi from St. Gallen (on the left).

Press review

Numerous are the reviews of our exhibition in the **local and international** press.

These are available on the website of the Fondazione Braglia in the section Media/Press Office (<http://www.fondazionebraglia.ch/press-office.html>).

Appointments

With pleasure we indicate the *Concert for Amiet*, on **Saturday November 18th** at 5 p.m. at the Museo d'arte Mendrisio as collateral event to the retrospective exhibition dedicated to Cuno Amiet organized in order to contribute to the widening of the knowledge of this extraordinary artist. The concert also offers a good chance to visit the exhibit which includes the paintings *Badende mit Lebensbäumen* (Bathers with Trees of Life, 1910) by August Macke and *Bauernhof bei Murnau* (Farm near Murnau, 1911) by Gabriele Münter, lent by the Fondazione Gabriele e Anna Braglia. These two works complete the section of the exhibition dedicated to the comparison between Amiet's works and his contemporaries in the international scene.

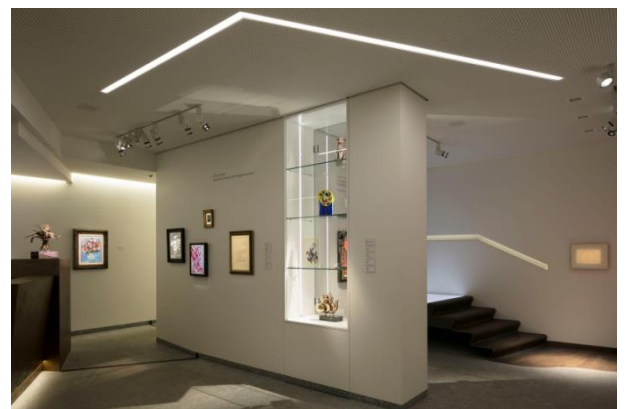

LAST MONTH OF POT-POURRI
